

OUR WORK PLATFORMS

Blackstone is an industry leader integrating the latest innovative new tools including automated API's for TEKLA, SDS2, Advance Steel & other software platforms. Our team partners with you for material management and efficient shop floor operations. Whether you need traditional drawings and data or model delivery methods, we become a part of your team.

TS

I met Ashref over 25 years ago, and we've been doing business ever since. He was a pioneer in the offshore steel detailing industry. And as he has grown his company and his team, he has kept the same values and focus; to deliver quality work and great customer service. I highly recommend Blackstone and can't say enough about what a great partner they have been.

TOM S, ST. LOUIS, MO

JP

HCP has completed approximately 400 commercial and industrial projects with Blackstone over the past 5 years, including small to medium sized jobs. They've been willing to take up projects on short notice and have provided quality work, on time. We will continue to include them in our bidding process and expect them to continue to earn and win our business.

JP, TAMPA FL

JK

Simkofab has so far completed 13 projects together with Blackstone. They've been excellent to work with and have always provided quality work, on time. We send all our bids to Blackstone and receive timely quotes. We will continue to work with them.

JOHN K, HAMMOND, IN

JB

I always include Blackstone in my bid process, and they usually win our bids. Their pricing is excellent, and the quality of their work has always met our needs.

JERRY B, DALLAS, TX

SE

One of the things I've been most impressed by with The Blackstone Group is their people, especially Egbal. I've known and worked with him for close to, or maybe more than 20 years. He is a top notch engineer with a vast amount of experience across many countries and projects. He is my go to guy who has never let me down. I appreciate being able to contact someone I know and trust, and know he will be with Blackstone forever.

SCOTT E, PHOENIX, AZ

BLACKSTONE WAS ESTABLISHED IN 1993 WITH A SINGLE GOAL IN MIND; TO OFFER QUALITY STEEL DETAILING AND ENGINEERING SERVICES AT COMPETITIVE PRICES. 30 YEARS LATER, OUR FOCUS REMAINS THE SAME.

Blackstone has over 30 years of experience in many building sectors, including shopping malls, hotels, convention centers, performing arts centers, schools and universities, sports stadiums, hospitals and other healthcare facilities, parking structures, powerplants, cement plants, oil and gas facilities, manufacturing units, conveyers, and many types of plate works.

We love sharing the knowledge we've gained through our experience with well over 5000 successfully completed projects, including Industrial and Commercial projects in the US, Canada, and Internationally. These projects have ranged from several hundred to in excess of 30,000 tons.

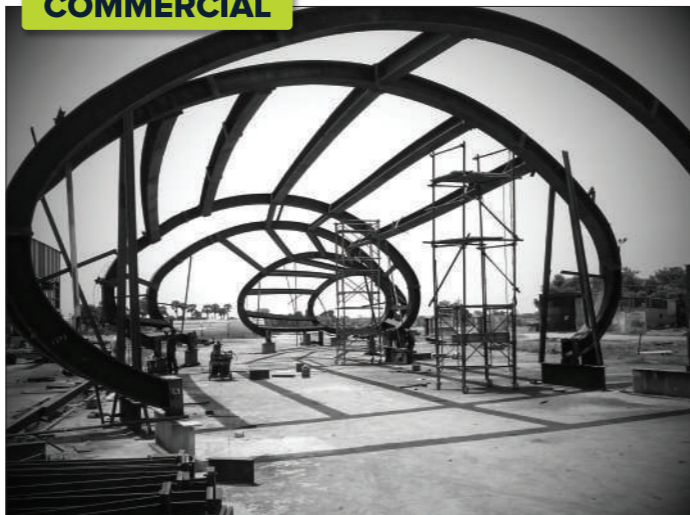

INDUSTRIAL

At Blackstone, we have cultivated our outstanding relationships and reputation by creating highly trained and motivated internal teams, meeting aggressive schedules, managing costs, and providing clients with superior customer service and support.

We remain committed to developing collaborative business partnerships while conducting business ethically, safely, sustainably & cost effectively. Blackstone collaborates with our fabricator partners, contractors and suppliers to provide innovative and reliable solutions to meet and exceed customer expectations.
