

## BLACKSTONE GROUP TECHNOLOGIES

Established in 1993 with a single goal in mind; to offer the highest quality Steel Detailing and Engineering services at highly competitive prices. 30 years later, our focus remains the same.

Are you looking for a  
long-term partnership?

So are we!

We love sharing knowledge gained through our international experience of over 5000 successfully completed projects, ranging from several hundred to over 30,000 tons. Give us a call; we have the experience and expertise to handle your challenging projects.

We have cultivated our outstanding reputation by creating highly trained & motivated Internal teams, meeting aggressive schedules, managing costs, & providing clients with superior customer service and support.

Blackstone is committed to developing collaborative business partnerships while conducting business ethically, safely, sustainably, cost-effectively. We collaborate with our fabricators, contractors, & suppliers to provide innovative & reliable solutions to meet and exceed customer expectations.

Our 2023 staff of 250 Steel Detailers, Engineers, Project Managers, & BIM Specialists are dedicated to delivering unparalleled service to our clients & business partners. We remain highly focused and sensitive to your project's design, budget, & deadlines to deliver on our commitments.

To continue to provide value and quality work, Blackstone is committed to investing in training & developing our people to constantly upgrade their skills and ability to meet AISC & NISD industry standards, and your needs.
